## Education

Bachelor of Science in Computer Science	Virginia Commonwealth University	August 2023
Advanced Diploma	Bruton High School	June 2018

## Work Experience

Lead Developer/Partial Owner - RLVNT	February 2023 - Present
Supervised cross-functional teams in the development, testing, and deployment of RLVNT	
Engineered a machine-learning similarity algorithm, providing personalized product recommendations	
Guiding RLVNT's multifaceted operations intensified my admiration and comprehension of cloud services	
Intern - Huntington Ingalls Newport News Shipbuilding Division	June 2019 - August 2019
Established 3-year industrial protective equipment distribution plan with partnered company Fastenal	
Developed workspace etiquette skills and gained insight into professional life	
Plan was fully implemented and is saving Huntington Ingalls an estimated \$30 million annually	
Server - Sedona Taphouse	November 2021 - Present
Facilitated the enhancement of my communication abilities and has contributed to my strong work ethic	

## Activities and Achievements

Alumni member of Theta Tau	Co-ed Engineering Fraternity	December 2018
Philanthropy chair of Pi Kappa Phi		January 2019
Achieved gold society status for raising over \$6,000 during my time as Philanthropy Chairman		
Planned and executed a virtual philanthropy fundraising week, raising over \$5,000 for charity		
Risk Management chair of Pi Kappa Phi		January 2020
Chaplain of Pi Kappa Phi		January 2021

## Relevant Skills

Proficient knowledge in the following languages, libraries, and frameworks	
Python	3 years of experience
Java	6 years of experience
C/C#	4 years of experience
JavaScript	3 years of experience
Express.js, Axios	2 years of experience

## Hobbies

Individual programming for productivity and entertainment

- Manipulated Microsoft's Graph API to combine all of my tasks and schedules into one application
- Collaborated with Quality of Life+ to engineer a life-enhancing Alexa Skill for reminding veterans
- Created a caregiver-focused React application facilitating API communication with Firebase
